

Homework 9b

Assigned: 3/12/20

Due: 3/17/20 on canvas, 11:59PM

Part 3:

If you have not already done so, read the document in the homework folder called [Online half way](#).

Per the lecture web site, [Online Graph Database Material](#)

Do review problems 1 and 2.

Problem 3 is not ready for primetime and not assigned (As I was working out the solution for myself, I realized the specification of organization 2 necessitates a three way join, By itself that is not disqualifying. But more background is called for.)

You already did Problem 4 as part of homework 8.
